## Tech Time

Need some one-on-one tech help? Bring your device (or use one of ours) and come prepared with a tech-related question or challenge you would like to explore with a savvy staff member. Tech Time is divided into three 20-minute timeslots that you can sign up for upon arrival. If you do not get a timeslot, you may put your name down on a waiting list in case we are ahead of schedule. Some common topics are Microsoft Office programs, mobile device troubleshooting, setting up and navigating a new device, accessing e-books and other online library resources, creating a social media account, adjusting device settings, transferring files between devices, and managing files or photos. We are unfortunately not qualified to fix a damaged device or replace components.

## Pop Culture Club: Design Your Own Album Cover

Pop Culture Club is a program series aimed at adults exploring topics that capture the cultural zeitgeist of the time. From vinyl to digital, the medium of music may be changing, but the thrill of the album cover remains the same! Using Adobe digital design software and the Random Album Cover Generator technique, participants can step into the world of Graphic Design using free software to explore, create, and remix their ideas to produce art that may one day find itself at the top of the charts. **NOTE: Registration required**
